PROFESSIONAL SUMMARY

Flutter and Dart developer with 4+ years of experience building, deploying and maintaining production mobile applications on the Google Play Store and Apple App Store. Strong in Clean Architecture, BLoC/Cubit, Provider and Riverpod, REST API integration, Firebase, unit testing, and real-time features such as WebRTC video conferencing. Experienced in resolving production issues, working from requirements through release in Agile teams, and mentoring junior developers. Available to join immediately.

TECHNICAL SKILLS

- **Mobile and Core:** Flutter, Dart, Android (Java / Kotlin), Cross-Platform Development, Material Design, Reusable UI Components, Third-party Library & SDK Integration, Native Platform Integrations, RESTful APIs, WebSockets, WebRTC
- **State Management:** BLoC / Cubit, Provider, Riverpod, GetX
- **Architecture and Practices:** Clean Architecture, SOLID Principles, Design Patterns (Repository, Singleton), Secure Coding Practices, CI/CD (Jenkins, Bitbucket), Code Reviews, Agile SDLC, App Store / Play Store Deployment
- **Backend and Services:** Firebase (Auth, Firestore, FCM), Dio, .NET Backend Integration, Payment Gateway Integration, Push Notifications
- **Local Storage:** SQLite (SQFlite), Hive, SharedPreferences
- **Tools:** Git, GitHub, Bitbucket, Android Studio, VS Code, Postman, Figma

PROFESSIONAL EXPERIENCE

Flutter Developer | XGen Business Systems, Kochi, Kerala | 2024 – 2026

- Architected and shipped three cross-platform apps for the NEAR platform (Near Chat, Near Governance, Near Video Conference), published on the Google Play Store and Apple App Store.
- Implemented real-time messaging, WebRTC multi-party video conferencing and governance voting workflows in Flutter using Firebase and REST APIs, using third-party libraries and SDKs such as WebRTC and Firebase.
- Diagnosed and resolved concurrency and performance issues in live applications, working with backend and design teams to deliver stable releases. Tested across Android phone, iPhone and iPad devices.
- Worked with a Jenkins CI/CD pipeline integrated with Bitbucket, where merged code triggered automated builds to the stores, and handled manual release publishing.
- Took features from requirements analysis through development, testing and store release.

Software Engineer | Lilac Infotech Pvt. Ltd., Calicut, Kerala | 2023 – 2024

- Maintained and enhanced production mobile applications: fixed bugs, resolved user-reported issues, wrote unit tests and delivered new features.
- Mentored intern developers on Flutter fundamentals, Clean Architecture and development best practices.
- Conducted code reviews to ensure code quality and standards compliance, and managed source control and team workflows using Git.
- Applied SOLID principles and design patterns (Repository, Singleton) alongside Clean Architecture to keep code clean, maintainable and robust.

Flutter Developer | Logiology Solutions Pvt. Ltd., Calicut, Kerala | 2021 – 2023

- Developed and deployed cross-platform Android and iOS applications from scratch to production using Flutter.
- Integrated secure payment gateways, push notification services and third-party SDKs, and implemented secure authentication following secure coding practices. Used Hive and SQLite (SQFlite) for offline storage.
- Built reusable UI components and RESTful API layers in collaboration with design and backend teams.

KEY PROJECTS

- **Near Suite (Chat, Governance and Video Conference):** Real-time decentralized chat, governance voting and multi-party video calling apps, live on Play Store and App Store. *Tech: Flutter, Dart, WebRTC, Firebase, REST APIs*
- **Scheme Agent and Customer Apps:** Dual-app jewellery scheme management platform with ERP integration, installment tracking and real-time FCM notifications. *Tech: Flutter, .NET Backend, REST API, FCM*
- **Samastha E-Learning App:** Digital madrasa education platform with secure authentication and video streaming. *Tech: Flutter, Dio, Firebase Auth*

EDUCATION

- Master of Computer Applications (MCA), Sikkim Manipal University | 2024 – 2026
- Bachelor of Computer Applications (BCA), University of Calicut | 2017 – 2020
